Committee Not Yet Decided How to Use Appropriation.

MAY BE EQUALLY DIVIDED

Mr. Rudd's Resolution, With an Amend ment, Goes Back to the Council Funeral of Mn Franklin.

Firemen Elected.

Manchester Bureau Times-Dispatch No. 1102 Hull Street. Street Committee of Manchester

has money on its hands, which it has not been able to decide what to do with not been able to decide what to do with.

When the budget was made out the sum of \$7,000 was appropriated for streets. At that time it was generally understood that with this appropriation a systematic plan of permanent street improvements would be started, with the idea that year by year such improvements would be made, until within a few years the city rould boast of as fine streets as any other city its size in the country.

The general impression in Council circles, as well as by the public, was that Stockton and Semmes Streets to be improved. Sammes Street, it is conceded, is used more than any other street in the city. It is, also, conceded that that three is in a worse condition than any other street in the city.

In asking for the appropriation, Chairman Patram intimated that the Street Committee had practically decided to permanently improve the two streets referred to, although no official action had been when the budget came up in the Board for adoption. Mr. Rudd, of the First the budget was made out the

taken.

When the budget came up in the Board for adoption, Mr. Rudd, of the First Ward, offered a resolution instructing the Street Committee to apportion the money out among the four wards in decordance with title amount of taxation paid in by the respective wards.

This resolution was sent to the Street Committee for action. It was laid on the table upon its first reading, and was taken up last night, upon motion by Mr. Reams.

The resolution areas to the street committee for action.

teams. The resolution created considerable discussion, the debate growing hot at times and it developed that each ward delega-tion was on the look-out for his own

tion was on the look-out for his own ward.

As a result of the debate, the men who had all along stuck to the original proposition to permanently improve Semmes and Stockton Streets, were willing to his or the appropriation equally divided among the four wards.

Mr. Wakefield, who at a previous meeting was the champion of the permanent improvement scheme, switched, and spoke strongly in favor of the division in proportion to taxation, and he would not agree to an equal division, maintaining his stand to the end.

The result of the whole thing was that the resolution was sent back to Council with the amendment to divide equally, and with the recommendation that it be adopted.

and with the recommendation that it be adopted.

Mr. Wakefield gave notice that he would flight the proposition in Council and it is likely that it will be some time before the committee finds out what it is going to do with its money.

In the meantime a large portion of it is going to temporary improvements, as required. Those who voted on the resolution as it finally passed were; Ayes—Pairam, Sampson, Ferguson, Barrett, Griztard, Reams, Tillery—7. Noes—Wakefield, Hooker—2.

FRENCH-LIPSCOMB AFFAIR.

The subcommittee appointed to investigate the charge made by Mr. Robert French that City Engineer Lipscomb had made away with a contract he had sent in for street work, embracing Mesers. Bampson and Grizzard, made a report axonerating the City Engineer, and explaining that, in their opinion, the whole matter was simply a misunderstanding.

TELEPHONE MATTERS.

The question of permitting Woodward & Company to have 'phone connection by running a wire into their building from across the street, was disposed of by the ptatement from the committee that they had no authority to grant such a permit. A letter from the new telephone company asking the right to dispose of its franchise, and which was referred to the committee by Council, was laid over to a special meeting to be called for one ovening next week, and action on a no-dee of suit by Ashiy Rawlings for \$2,000 igainst the city for injuries sustained in lailing in an areaway, was also deferred to that meeting.

PIANOLA

It is possible to play the piano so well by means of the Pianola that even a critic cannot tell the playing from that of a human performer. Without any musical education whatever, any piece of music ever composed can be played, not only correctly, but with expression.

NOT AN AUTOMATIC ATTACHMENT.

The Pianela is not an automatic attachment for a piano. It is not, even when in use, attached to the plano. It is not placed within the piano to fill up the sounding-space and destroy the instrument's tone. It is placed in front of the piano, so that its fingers rest upon the keys; but it is at all times separate and distinct from the plane itself.

Of the success of Manager Cliffen's latest venture, the Academy Musical Comedy Company, there can be no doubt. It was a foregone conclusion that this folk, where the company opened a week ago, were of the most eulogistic nature,

ago, were of the most eulogistic nature, and those reports have been enthusiastically endorsed by the local press and by the play-going public.

If "The Lady Slavey," which is running at the Academy this week, is an earnest of what is in store for the rest of the spring and summer season, then one need not expect anything but laughter, and color, and wit, and beauty, and a good time generally, for that is precisely what you get at the Eighth Street Theatre this week.

Next week the company will be seen in Next week the company will be seen in "The French Maid."

"The French Maid."

In the second act of "On the Suwanee River," the attraction at the Bijou this week in the plantation secone where Aunt Lindy is master of ceromonies and her faithful followers entertain the audience with singing and daneing, there is introduced a little side play which is very amusing. The field hands have a couple of real game cocks and they hold a main in full view of the audience. The cocks fight hard as did ever any two of their kind, but are prevented from injuring each other by little gloves or cushions which are fastened upon their spurs.

Mr. Howard Hall. In his great success, "The Man Who Dared." Is supported by Miss Nina Morris, and one of the most prominent casts over brought together in a popular priced attraction will be seen at the Bijou Theatre next Monday, Tuesday and Wednesday. This attraction has already established itself throughout the country as the very highest class organization of its kind now traveling.

The more successful plays in this day and age are rarely allowed to go to the uses of stock companies for many years after their initial production, but by a special arrangement George Fawcett has secured temporary control of the famous play, "Mistress Nell." and will present Miss Percy Haswell and one of his companies here in this play, beginning with the Thursday matines of next week at the Bijou. This will be the first time this excellent play has ever been seen here at any price, and coming as it does now with that excellent actress. Percy Haswell, in the title part, it will be an event of great inportance theatrically here. Appearing with Miss Haswell will be the full strength of this section of the George Fawcett Company.

NO CHANGE IN POLICE

The Sanitary Officers Will Remain as They Are.

CITY ATTORNEY'S OPINION

torney Pollard reflected upon and the Sanltary Department of the city denounced sioners yesterday afternoon, by a vote of 4 to 8, recorded itself as opposed to removing any of the sanitary inspectors from their present positions to places on the patrol force. In addition, the Board passed a resolution instructing the Chief o see that in the future any policeman mains in active service until he has been

mains in active service until he has been relieved at a given hour of change. Considerable feeling was displayed over each of the matters and the debate at times was exceedingly interesting, instructive and sploy, although all members appeared cordial at all times.

OLID VS. YOUNG.

The vote considered, the result of the meeting yesterday afternoon may be summarised as a decided split between the old and young members of the Board, the former making what they think is a consistent and wise effort to improve the Police Department, not only increasing the force, but more thoroughly controlling the men.

An effort on the part of Commissioners Bosher and Landerkin to go into executive session was strenuously and successfully opposed by Messrs. Manning and Weish. The motion was never put, but as a precaution the minutes of the last meeting—a secret session—were not read. Mr. Manning, patron of the plan to better the force by removing at least two of the sanitary inspectors to the policy force, argued that both Messrs Walton and Lamkin are aufficiently hale and hearty to perform active duty. He thought that the position they now hold might be filled by superannuated members of the department, and suggested several members.

department, and suggested at the bers.

Mr. Whittot said that he favored the scheme, and upon investigation had discovered that the Sanitary Department now does little, if any, work. He regarded the work as a joke, saying it was a perfect farce. Probably ten or a dozen houses were inspected each day by the men, and in order to make their work look voluminous, their reports were scattered over a whole day.

Mayor Taylor, presiding officer, inter-rupted to say that he was against the scheme and wished he had a vote. He said that City Attorney Pollard had ren-dered an opinion in regard to the powers of the board to transfer men, and ex-cused himself long enough to get the opinion.

SEBRELL'S NEW LIQUOR MEASURE

might offer it, and have the two conmight only it, and times sidered at the same time.

Mr. Sebrell has prepared his amendment in the nature of a substitute, and will offer it to-day, if the House shall adopt the state of the same half and the same times are same as the same time. Mr Davis' motion, and over both pro

Mr. Davis' motion, and over both propositions a big fight is likely. The Sebrell amendment, which is printed in full below, presents an entirely new plan of controlling the liquor husiness in the rural districts, and bristles with interest in every line. It proposes to apply to the identical sections desirand by the Mann bill, and instead of licensing bar-rooms, to break them up entirely.

RETALL STORES.

stead of licensing bar-rooms, to break them up entirely.

RETAEL STORES.

But to retail liquor stores, licenses at \$100 each will be granted, as are bar-rooms under the present laws, with numerous restrictions and safeguards. One is that no liquor shall be drunk where sold. Another is that these stores shall close at sundown and remain closed until sun up. The sales shall be only in scaled and unbroken packages, in quantities ranging from one-half pint to four gallons. On each of these packages there shall be a State revenue stamp of one cent per one-half pint or the fraction thereof, which will amount to sixteen cents per gallon. All this goes to the State.

the State.

Mr. Sebrell thinks his amendment will come nearer solving the problem than will the Mann bill. He declares that it is a temperance measure, and that he will press it for all it is worth. The popular Southampton member says his bill will break up the social feature altogether, and will be a fine revenue getter. In his bill Mr. Sebrell imposes heavy fines upon persons for violations of its provisions.

One of the biggest fights of the

provisions.

One of the biggest fights of the session is looked for over these two interesting propositions to-day.

SEBRELL, SUBSTITUTE.

The one to be offered by Mr. Sebrell reads as follows:

reads as follows:

1. Any person, firm, partnership or corporation desiring to sell wine, ardent spirits or mait liquors in the country and in towns of less than one thousand population shall first obtain a license therefor as provided now for selling liquors by rotall in the Commonwealth. Many Well-Known Richmond People Hear Professor Windsor's Address.

Professor William Windsor, LL. B., Ph. D., for whom it is claimed that he is the "world's most eminent phrenologist," delivered his second lecture at the Masonic Temple last night and was heard by a large audience, in which were many by a large audioned, in which were many well known people. The subject of the vening's discourse was "How to Ha-come Rich." But the chief interest among the people seemed to be his exhibition of phrenology. Two gentlemen were nominated by their friends in the audience and Professor Windsor undertook to tell their habits and dispositions by their heads.

Among those present who seemed to be enjoying themselves greatly, were Commissioner of Agriculture Kolner, who has a well shaped head himself and who is known to be deeply interested in phréndley; Dr. C. E. Hartman, a well known dentist and Mason, whose friends loudly called for him to have his shapely head examined; Mr. Richmond M. Lacy, the well known attorney at law, and others. "To-night Professor Window will discuss "Health." This discourse closes the series, but the locutirer will conduct a school of phremology for a short while, it is understood.

The condition of Mr. Robert Euker, who was struck by a falling beam while at work, at the pentientiary yesterday and had his foot badly mashed, was reported as easy last night. He is resting as well as possible at his home, No. 217 East Leigh Street,
